PROJECT HIGHLIGHTS

Food delivery app | [\[Demo\]](#) | [\[Code\]](#) |:

- Developed a **responsive** food delivery application using **React.js** where users can search cuisines, manage cart items, and place orders. Integrated **Firebase** for **authentication** and manual login using email/password. Users can save, update profiles, and view order history. Ensured smooth user experience with **real-time** updates and **intuitive UI**.

Expense-tracker | [\[Demo\]](#) | [\[Code\]](#) |:

- Built a user-friendly expense tracker that allows users to set a monthly budget, log expenses, and monitor balance. Implemented **manual login** system and **integrated Gemini AI** via **free API** to assist users with queries. Visualized spending data using **Chart.js** for clear expense insights and improved financial management.
